

External Somoreal LED solar lamp SM-OLT3 with dusk and motion

Ref: 5907489604451

External Somoreal LED solar lamp SM-OLT3 with dusk and motion

Wall-mounted Solar Lamp Somoreal

A modern wall lamp will always light up your way home. It detects movement even at an angle of 120 degrees, and then 32 LED lights will activate so you won't run into any obstacles. Large battery capacity and waterproof system are an addition to allow you to feel the greatest comfort after installation.

Functionality

The special construction makes the lamp shed light on four different sides in order to illuminate the largest possible area. On the upper part there is a solar panel, which charges energy during the whole day and increases the conversion efficiency to 17%. It has 32 LED lights that shine in a white, cold color. The luminous flux reaches 200Lm.

Practicality

The system of light and motion sensors reaches up to 8 meters of distance and extends to 120 degrees. One movement is enough and the lamp is activated, shining at the appropriate intensity for 30 seconds. Built-in battery with a capacity of 1200mAh will allow you to operate all night long.

Resistant material

Mobilemax - Gadgets and Accessories

Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal

Ideal for placement in external space. Double-strong material will work well even in the worst conditions. Waterproof IP64 system completely protects the lamp from flooding. At the same time the whole headlamp is designed so that it also does not overheat while drawing energy from the sun.

Manufacturer

Somoreal

Model

BW-OLT3

LED

32 SMD2835

Luminous flux

200Lm

Battery capacity

3.7V/1200mAh

Material

PC+ABS

Solar panel

DC5.5V/0.5W

Temperature Colour

6500K

Sensors

lights, motion

Range of movement

8m

Waterproof system

IP64

Ambient temperature

0~45°C

Size

133x110x50mm

Preço:

€ 19.00
