LED projector BlitzWolf BW-V5 1080p, HDMI, USB, AV (white)

Ref: 5905316147034

BlitzWolf BW-V5 1080p LED Projector / Overhead projector, HDMI, USB, AV (white)

Are you looking for a projector that allows you to watch your favourite films or series on the big screen in excellent quality? The BlitzWolf BW-V5 is exactly what you need! The LED projector offers a resolution of 1920 x 1080, which guarantees exceptional image quality and precise detail. It allows for image correction and manual focusing, and its brightness reaches up to 9,000 lm. It offers multiple ports so you can connect a variety of devices to it. A remote control is also included to help you operate the device from a distance.

Watch movies and series in the highest quality

The 1920 x 1080 native resolution combined with LCD technology provides a high-quality picture with saturated, vivid colours and a wealth of detail. So you won't miss a thing while watching movies or playing your favourite games! With a brightness of 9,000 lm and a contrast ratio of 1,000:1, every projection is clear, bright and crisp, even in bright rooms.

Multiple connection options

The BlitzWolf BW-V5 is equipped with multiple ports, including AV, 2x HDMI, 2x USB and AUX. So you no longer have to worry about compatibility problems! You can successfully connect various devices to the projector, such as a laptop, games console, TV, tablet or even a smartphone.

Perfect picture placement

The projector has also been designed with the user in mind. The manual focus and $\pm 15^\circ$ keystone correction allows you to conveniently adjust the image to your needs. This makes it easy to eliminate any errors made when setting up the projector. What's more, the wide projection range means you can freely use the projector in both smaller and larger rooms.

Thoughtful design

The BlitzWolf BW-V5 projector has been designed for comfort. It stands out for its lightweight and compact design, making it easy for you to carry around. With a long lamp life of up to 50,000 hours, you can be sure that the projector will serve you well for years to come. You also don't have to worry about annoying noise during projection - the projector's volume level does not exceed 44 dB.

Even more immersion

The device also supports 3D Red / Blue technology, which means you can enjoy your favourite films in 3D - just by wearing special glasses (not included). This is great for cinema and video game lovers. Now you'll feel as if you yourself are the hero of your favourite game or TV series!
