Blitzwolf BW-HP5 wireless headphones, ANC, AAC, 1000mAh (bla

Blitzwolf BW-HP5 Wireless Headphones, ANC, AAC, 1000mAh (Black)

Get even more enjoyment out of listening to music with the Blitzwolf BW-HP5 headphones! With dual 40mm+20mm dynamic drivers, they deliver richly detailed sound and powerful, deep bass. It also supports hybrid active noise cancellation technology, so you can play music even in crowded places. Bluetooth 5.0 technology ensures a fast and reliable connection to your devices, and the capacious battery allows you to listen to music for up to 75 hours. They also feature high-quality microphones for convenient conversations.

Discover the power of sound

Your favourite songs have never sounded better. Featuring dual 40mm+20mm dynamic drivers, the Blitzwolf BW-HP5 headphones deliver superior sound quality in all conditions. This allows you to listen to music in stunning quality, with crisp sound detail and incredible bass depth to bring your favourite tracks to life. Take your music experience to the next level with Blitzwolf!

Forget about annoying noise

Immerse yourself in the sounds of your favourite songs and forget about the world around you! Blitzwolf headphones use the latest active noise cancellation technology, which reduces background noise by up to 40 dB. This allows you to fully focus on listening to your music or your favourite podcast, no matter where you are. Want to stay in touch with your surroundings? Use the Transparency mode - you'll never miss an important announcement at the train station or airport again!

### Stay in touch with others

The BW-HP5 not only provides you with delightful sound quality, but also excellent conversation quality thanks to its 6 built-in microphones. With them, you are free to make phone calls or video conferences without the need for additional devices. The microphones reliably capture your voice, so you can be sure that your caller will hear you without any problems.

### A new dimension in wireless connectivity

Worried about delays, interference and other connection problems? With Blitzwolf, you don't have to worry about a thing! The headphones support the AAC codec and Bluetooth 5.0, which provides a reliable, fast and seamless connection up to 10m. It doesn't stop there though! You can successfully connect them to two devices at the same time! Now you can listen to music on your tablet and take calls on your smartphone at the same time!

### Listen to music for as long as you want

Say goodbye to limitations and enjoy your music for up to 75 hours! The BW-HP5 headphones are equipped with a powerful 1,000 mAh battery, which is responsible for the long running time. This allows you to play your favourite songs for up to 75 h (when ANC mode is switched off). So you don't have to worry about having to charge the headphones frequently! What's more, it won't take you long to renew the energy either - they'll be ready for use again after just 2.5 hours.

### Dreamlike comfort

The headphones have been designed with maximum user comfort in mind. The ergonomic design of the headphones will allow you to enjoy unparalleled comfort even for hours. The soft ear pads not only provide excellent isolation of ambient sounds, but also do not cause ear fatigue. The adjustable headband allows you to fit them perfectly to your requirements. In addition, the foldable design of the headphones makes them easy to transport and store.
