Bone headphones Dudao U2Pro, Bluetooth 5.0 (Black)

Dudao U2Pro bone conduction headphones

Dudao U2Pro are functional bone conduction headphones, which are ideal for people with active lifestyles. Lightweight and comfortable - they provide high comfort. They are also distinguished by a working time of up to 6 hours and resistance to water and sweat. Bluetooth 5.2 guarantees a reliable wireless connection, and the built-in touch panel makes it easy to operate the headphones.

Made for athletes

Do you exercise a lot? Do you often go jogging around town? Bone headphones will be perfect for you! Thanks to them you will gain the ability to comfortably listen to music during your workout, without losing contact with your surroundings. Now you can easily hear an oncoming car or a bicycle bell!

Lightweight and comfortable

What else makes the U2Pro so good for your workouts? The headphones are incredibly light - weighing only 16g. You won't even feel that you are wearing them! At the same time, they are extremely comfortable - don't be afraid of discomfort. They also feature water resistance - they are not intimidated by rain or sweat. Even if you get caught in the rain while jogging, nothing will happen to them!

Hassle-free operation

You no longer have to reach for your phone every time to operate the headphones. The U2Pro are equipped with a practical touch panel that provides quick access to the most important functions. Now everything you need is at your fingertips! The headphones also use a state-of-the-art Bluetooth 5.2 connection, so you can enjoy reliable signal transmission over a distance of up to 10 meters.

Long runtime

Listen to music during your next workout without worry. The headphones are equipped with a 240mAh battery that provides up to 6 hours of runtime on a single charge. What's more, the U2Pro lasts up to 120 hours in standby mode! So they will be almost always ready to serve you. The headphones also have a built-in USB-C port for convenient charging.
