TWS Acefast T8 headphones, Bluetooth 5.3, IPX4 (mint)

Listen to your favourite tunes with the Acefast T8. The headphones will provide you with high-quality sound thanks to the integrated speakers, while SVE technology, which uses artificial intelligence, will enable effective reduction of unnecessary noise so you can listen to your new album in peace. Bluetooth 5.3 technology will allow you to work wirelessly for up to 7 hours, and the built-in LED display will let you know the current battery status. What's more, the headphones are distinguished by their IPX4 waterproof rating.

Fantastic sound

The headphones feature Dual-Motion speakers, so you'll be able to enjoy clear highs as well as deep bass in the songs you love. What's more, thanks to SVE technology, you can enjoy high-quality listening as well as noise-free phone calls, even on a crowded bus.

Powerful work

The high-capacity battery will allow up to 7 hours of music listening or 4 hours of phone calls. The included headphone case supports wireless charging, allowing you to refill your headphones in no time. In just 10 minutes, you can listen to your favourite music for an extra 2 hours!

Bluetooth 5.3

The Acefast T8 supports Bluetooth 5.3, so you'll enjoy wireless headphone performance and reliable stability with low power consumption. What's more, Bluetooth 5.3 provides even faster data transmission, so you can freely watch a movie or play arcade games. The universal software will enable you to work with almost any device.

Clear display

The Acefast T8 wireless headphones feature a three-dimensional LED display that will inform you of the battery status and emit a pleasant light while charging, so you can easily find your headphones even at night. Their modern design makes the T8 not only a practical device, but also a great looking accessory. Choose your favourite colour and let yourself be surprised by good sound.
