TWS Acefast T6 Headphones (Green)

The Acefast T6 headphones will make listening to music even more enjoyable. They feature 4 microphones with ENC noise cancellation, so the quality of your calls will be perfect. The headphones provide up to 4 hours of battery life and the built-in digital display will let you know your battery charge status. Bluetooth 5.0 ensures a reliable connection. You'll have no problem using them and the touch-sensitive controls allow you to answer a call or change a song without having to reach for your phone!

Up to 20 hours of music listening

Listen to your favourite songs almost without limit. The headphones provide up to 4 hours of uninterrupted music listening or up to 3 hours of phone calls (70% volume). You can extend this time to up to 20 hours with the charging case. Its capacity is 500 mAh, so you can charge the TB headphones up to 4 times. What's more, the device supports fast charging, so you only need 10 minutes of charging to enjoy your music for another 1.5 hours!

Bluetooth technology

The T6 features a high level of syncing, making them ideal for gaming enthusiasts. The Acefast headphones will enable seamless gaming without interference - Bluetooth 5.0 guarantees perfect transmission at distances of up to 10m. You can also choose from 2 modes: Stereo and Single, which makes each headphone connect to the selected device independently.

Convenient operation

No more having to pull out your phone to change a song! The headphones feature touch-sensitive panels for easy operation. You can use them to manage incoming calls, activate the voice assistant, adjust the volume and change songs with just a few taps!

Designed with the user in mind

The T6 headphones stand out not only for their functionality, but also for their stylish and modern design. It comes with a silicone case for added character and great protection against scratches. An added bonus is the small size and IPX4 protection rating, so you can use them in any conditions. In addition, the headphones are extremely comfortable, so you can use them even for long periods of time without discomfort or fatigue.
