INVZI GanHub 1x USB-C charger, 67W, EU/UK/AU/US + 1.5m USB-C

Ref: 744252199876

INVZI GanHub 1x USB-C charger, 67W, EU/UK/AU/US + USB-C cable 1.5m (black)

Charge your gear quickly and conveniently! With the mains charger, your devices will get a full battery back in no time, as it stands out with a power output of 67W. What's more, it's compatible with the main charging protocols, so you can use it with all sorts of devices. It also comes with travel adapters and a USB-C cable to make using the charger even more convenient.

Fast charging

The INVZI AC charger is equipped with a USB-C port, which allows you to charge with up to 67 watts of power! This makes it possible for your MacBook to recover as much as 50% of its battery in just 30 minutes! With INVZI, you can forget about the long waiting time and fully enjoy your devices!

High compatibility

The AC charger offers great compatibility thanks to its compatibility with major charging protocols. It can automatically detect and charge a wide range of devices, including notebooks, phones, tablets, headphones and more. This means you don't have to worry about whether your device is compatible with the charger. It is ideal for those who own a wide variety of electronic devices and want to charge them quickly and conveniently.

Comfort of use

The INVZI mains charger is extremely compact yet provides maximum charging power, making it ideal for taking with you on a trip or for everyday use at the office or home. Thanks to its special design, the charger can be smaller and more powerful than a traditional charger, which means it takes up less space and is easier to carry.

Security

The INVZI device offers a number of features that protect devices from damage and users from dangerous situations. One of the main features is protection against overcurrent, overvoltage, overheating and short circuit. As a result, even if such problems occur, the charger is able to respond quickly and effectively to prevent damage to the device or the occurrence of danger to the user.

Additional accessories

Included in the kit are additional EU/UK/AU/US adapters that allow you to charge your devices in different geographic regions, which is especially useful for travelers. In addition, you'll also find a 1.5m USB-C cable, which allows you to charge your devices even from a greater distance and further enhances your freedom of use. With these accessories, the charger becomes even more versatile and functional, allowing you to charge different devices and operate in different conditions.
