INVZI GanHub 3x USB-C, 140W, EU/UK/AU/US power charger (black)

Charge your gear quickly and conveniently! With the mains charger, your devices will get a full battery back in no time, as it stands out with a power output of 140W. What's more, you can use it with all sorts of devices. Travel adapters are also included, making the use of the charger even more convenient.

Fast charging

INVZI's AC charger is equipped with 2 USB-C ports that allow you to charge with a maximum power of 65 watts, and a USB port that charges with a maximum power of 140 watts! This makes it possible for you to charge several devices at the same time, saving you time. With INVZI, your gear will be ready to use again in no time!

High compatibility

The network charger offers great compatibility. It can charge a wide range of devices, including notebooks, phones, tablets, headphones and more. This means you don't have to worry about whether your device is compatible with the charger. It is ideal for those who own a wide variety of electronic devices and want to charge them quickly and conveniently.

Comfort of use

The INVZI mains charger is extremely compact yet provides maximum charging power, making it ideal for taking with you on a trip or for everyday use at the office or home. Thanks to its special design, the charger can be smaller and more powerful than a traditional charger, which means it takes up less space and is easier to carry.

Security

The INVZI device offers a number of features that protect devices from damage and users from dangerous situations. One of the main features is protection against overcurrent, overvoltage, overheating and short circuit. As a result, even if such problems occur, the charger is able to respond quickly and effectively to prevent damage to the device or the occurrence of danger to the user.

Additional accessories

Additional EU/UK/AU/US adapters are included to charge devices in different geographic regions, which is especially useful for travelers. With these accessories, the charger becomes even more versatile and functional, allowing it to charge different devices and operate in different conditions.
