Cable USB-C Mcdodo CA-7280, 1.2m (white)

Ref: 6921002672801

Cable USB-C Mcdodo CA-7280, 1.2m (white)

Mcdodo CA-7280 USB-C cable, 1.2m (white)
You may spend time waiting for your devices to charge, but why should you? Designed for fast charging, the McDodo cable supports 3A current, reducing power time. What's more, it supports the QC 4.0 protocol, which means it will successfully handle devices from popular manufacturers such as Huawei, Xiaomi, Samsung, Vivo, and Oppo. The cable is distinguished by its robust design, and uses a smart chip to protect the batteries of your devices. What's more, it allows data transmission at 480 Mbps. USB-A to USB-C connectors guarantee wide compatibility with many devices.

Security is key
The McDodo cable uses the action of a smart chip, so it recognizes the type of connected devices. Such a solution allows it to adjust the charging current and provide your equipment with full protection against overcharging, overheating, or short circuit.

Robust design
CA-7280 is a cable whose thickened core design ensures stable transmission and high conductivity. That's not all! Its ends are extremely flexible, making it extremely resistant to bending - forget about damage near the connectors. McDodo will not let you down! Noteworthy is the TPE sheath - it is skin-friendly and provides protection against pulling, so the cable will serve you for a really long time!

Transfer files at an express pace
Now you only need a few moments to transfer files between devices. The cable allows transmission at 480 Mbps, which means that it will literally take you a moment to transfer a large movie or a folder of photos! Don't waste your time waiting!

Manufacturer
McDodo
Model
CA-7280
Material
TPE
Color
White
Length
1,2 m
Charging current
3A
Weight
31 g
Functions
Charging + data transmission
