360° Indoor Wi-Fi Camera IMOU Rex 4MP H.265

The IMOU Rex camera features a compact design and records clear 4MP QHD images in real time. What's more, it offers a wide viewing angle - capturing almost every corner of the room. It automatically detects and tracks moving figures. In turn, a dedicated mode covers the lens when you're indoors, to protect your privacy.

High image quality

The IMOU Rex camera uses an advanced 4MP QHD image sensor, which translates into clear and crisp images. What's more, smart algorithms ensure high image quality even after dark. The detection range in night mode reaches 10m.

2 ways to save footage

Save recordings to a micro SD card or IMOU cloud. The camera is equipped with a slot for a micro SD card, which can hold max. 256 GB of recordings. You can also use the IMOU cloud to receive notifications of software updates and footage.

Wide angle detection and object tracking

The camera's clever design allows for 355° horizontal and 90° vertical rotation. As a result, you gain access to every nook and cranny of the room eliminating blind spots. What's more, it intelligently detects and tracks moving objects and people, as well as unusual sounds,

notifying you with a notification in the app, when an intruder is detected, an alarm and warning light will be activated.

Two-way audio

The IMOU Rex camera has a built-in microphone and speaker and supports two-way audio. What's more, it offers echo cancellation, resulting in better audio quality. As a result, you can communicate with your family or scare off a burglar even if you're not at home.
