

## 360° Indoor Wi-Fi Camera IMOU Ranger 2 4MP

360° Indoor Wi-Fi Camera IMOU Ranger 2 4MP

Ref: 6939554948954

### IMOU Ranger 2 2MP rotating indoor camera

Have confidence that you and your loved ones are safe! The Ranger 2 camera can record in 2MP Full HD resolution and provides a wide viewing angle. It offers many practical features, including intelligent motion tracking or noise detection, as well as a special privacy mode that will automatically cover the camera lens when you are at home. It supports 2-way audio, and a dedicated app will make operating the device easier. It also supports microSD cards of up to 256GB.

### Great image quality

Now you can enjoy the fantastic quality of your recordings, regardless of the time of day. Full HD 1920 x 1080p resolution combined with an advanced IR algorithm and a wide 115° viewing angle means that no detail will escape your attention. With the ability to pan up to 355° and tilt up to 80°, the Ranger 2 camera will easily capture almost every corner of the room. What's more, it will also work great after dark - the night mode turns on and off automatically!

### Intelligent motion and noise detection

Never miss anything important again! Ranger 2 uses advanced image processing technology that intelligently detects motion and unusual sounds. What does this mean? If an unwanted person shows up at your home, the camera will immediately send a notification to your smartphone via the app and trigger an alarm to chase the intruder away. What's more, it also offers a function for tracking moving

people and objects.

#### Two-way audio

The camera has a built-in speaker and microphone, so you can talk freely with the rest of the household, even if you are not at home. Two-way audio will also allow you to call the kids to the dining room for dinner, interact with your pet, and scare away uninvited guests. Have control of your home, no matter where you are!

#### Secure storage of materials

Are you worried that important materials have not been saved? Don't be! The camera features a microSD card slot with a maximum capacity of up to 256 GB. You can also take advantage of the IMOU cloud, which allows you to view your saved recordings, as well as update the software.
