

## Automatic Wireless Car Charger Budi 15W (Black)

Automatic Wireless Car Charger Budi 15W (Black)

Ref: 6971536926383

Automatic Wireless Car Charger Budi 15W (Black)

Conveniently use your navigation, charge your phone wirelessly and always have it at your fingertips while traveling. Budi's car mount with inductive charger allows charging with up to 15 W of power and is very convenient to use. It is also distinguished by its soft illumination and robust design. Among other things, you will also find in the set several holders with which you will attach the accessory to your dashboard or air vents.

Faster charging

Going on vacation? Charge your phone before you get there! The charger provides up to 15 W of power, allowing you to charge compatible devices in a very short time. Just place your smartphone on it and be sure that it won't discharge at the least opportune moment! The kit also includes a QC3.0 car charger and a USB-C cable, which are necessary for the proper operation of the accessory.

Convenient use

Want to attach the charger to the grille or maybe on the dashboard? No problem - the included mounts will allow you to do so! What's more, the product is designed to provide the smartphone placed on it with maximum stability and safety - its additional advantage is the rubber surface, which guarantees effective protection against shocks. Don't be afraid that your phone will fall and be damaged! You can also freely adjust the position of the holder.
