

## Temperature & Humidity Sensor IMOU ZTM1 ZigBee

Temperature & Humidity Sensor IMOU ZTM1 ZigBee

Ref: 6971927233793

### IMOU ZTM1 temperature and humidity sensor

Ensure optimal conditions in the room of your choice. The intelligent sensor IMOU ZTM1 will help you with this, as it accurately measures temperature and humidity - you can find the measurement results on the built-in display or in the Imou Life app. The product is distinguished by its accuracy of 0.3°C and is very easy to install. You can also combine it with other devices and create smart scenes to automate their operation.

### Convenient access to information

Keep your hand on the pulse and enjoy convenient access to the most important information about the ambient conditions. The IMOU sensor will allow you to check temperature and humidity levels in 2 ways - via the built-in LCD screen or a dedicated app. The device also provides access to historical data (up to a year back), so you can verify that the changes you make are having the desired effect.

### Place it anywhere

The device is extremely easy to install. It is equipped with a special stand, so you can place it on a table, shelf or kitchen worktop. Prefer to hang the sensor on the wall? No problem - just use the supplied 3M adhesive sticker.

### Long operating time

You only need 2 AAA batteries to power the product, which you will find in the set. What's more, the device can serve you for up to a year before they need to be replaced! Nor do you have to worry about the sensor unexpectedly refusing to work. You will find information about the status of the battery on the built-in display, and when it is about to run down, you will receive a notification on your phone.

#### More possibilities with the app

Add the product to the Imou Life app and enjoy a number of interesting features. For example, you can connect the sensor to other devices. Make the air conditioner and humidifier start automatically when the temperature exceeds a certain level and the humidity in the room drops significantly! You will also receive useful notifications and gain access to historical data.

#### Impressive precision

The IMOUE sensor will surprise you with the precision of its measurements. The device measures temperature with an accuracy of up to 0.3°C and humidity with an accuracy of  $\pm 2-3\%$  RH. So you always know what the conditions are in a specific room. Don't be afraid of big errors! What's more, when the humidity and temperature exceed a set level, you will know immediately.

#### In the box

1x temperature and humidity sensor

1x mounting bracket

1x 3M sticker

2x AAA batteries

1x quick start guide

Brand

IMOUE

Model

ZTM1

Operating voltage

DC 3 V

Standby current

$\leq 30 \mu\text{A}$

Mounting

Can be wall-mounted or placed on a flat surface

Operating time

Approx. 1 year

Power supply

2x AAA batteries

Operating current

$\leq 30 \text{ mA}$

Operating temperature

From -10°C to 55°C

Dimensions

$\Phi 61 \times 23 \text{ mm}$

Communication standard

ZigBee

Transmission power

$\leq 15 \text{ dBm}$

Transmission frequency

2.4 GHz

Range

Up to 1200 m (outdoors)
