

Smart Door/Window Sensor IMOU ZD1 ZigBee

Smart Door/Window Sensor IMOU ZD1 ZigBee

Ref: 6971927233731

IMOU ZD1 door/window opening detector

Ensure your comfort and increase the level of security in your home. The IMOU ZD1 sensor will detect if a door or window is open. If someone opens them by about 25 mm, you will know immediately - you will receive a notification on your phone. You can also combine it with other devices, such as an alarm siren. The product is very easy to install and has a service life of up to 1 year.

Keep your finger on the pulse

With IMOU, you will always know if an unwanted person is entering your home. All you need to do is mount the ZD1 sensor and then pair it with the ZigBee control panel (sold separately). The device stands out for its high accuracy - if someone opens a door or window, you'll get an instant notification on your phone. What's more, the product has been further protected against tampering or removal by an unauthorised person.

User-friendly

The sensor is very easy to install - simply stick it in the desired location using the supplied 3M sticker. The device also stands out for its long service life - you can use it for up to a year without any problems. And you don't have to worry about it failing unexpectedly - you will receive a notification when the battery voltage is low.

Check out what the app has to offer

Add the sensor to the Imou Life app and get more features. Receive notifications, check the status of your device with your smartphone and change settings conveniently. Now it only takes a few clicks to see if everything is okay at home! You can also pair the sensor with other IMOUE products to automate their operation. Make it so that when someone enters a room, the lights automatically turn on or the alarm siren goes off!

In the box

1x door/window sensor

1x 3M sticker

1x quick start guide

Brand

IMOUE

Model

ZD1

Transmission power

≤ 10 dBm

Operating voltage

DC 3 V

Low voltage alarm

2,6 V

Standby current

≤ 10 uA

Mounting location

Wall

Operating temperature

From -25°C to 55°C

Operating current

≤ 30 mA

Dimensions

52.6 x 39.8 x 13.8 mm

Battery life

Approx. 1 year (20 times a day)

Wireless communication standard

ZigBee

Transmission frequency

2.4 GHz

Range

Up to 200 m

Application

Imou Life
