

Smart Motion Sensor IMOU ZP1 ZigBee

Smart Motion Sensor IMOU ZP1 ZigBee

Ref: 6971927233724

Imou ZP1 motion sensor

The motion sensor is a device that can make it easier for you to function at home. It captures infrared light emitted by the human body, sensing human presence. In this way, it can detect a possible intruder and generate an alarm. What's more, you can integrate the sensor, for example, with smart lighting in your home, so that when motion is detected, the light in a particular room automatically turns on. Check out how convenient it is! The device offers hassle-free installation and stands out for its long operating time.

Intelligent motion detection

The device operates on a 2.4GHz network and uses the Zigbee protocol, ensuring a reliable connection and interference-free transmission. When paired with smart lighting, you can install the sensor in your basement, for example, and the light will turn on as soon as the sensor detects motion. What's more, when someone comes within range of the sensor, you will immediately receive a notification on your phone. Now nothing will escape your attention.

Easy installation and robust design

The device is distinguished by its high quality workmanship - it is not afraid of extreme temperatures, so it can also successfully work outdoors. Its installation will not cause you the slightest problem. Note: the sensor achieves the best efficiency when mounted about 2.2 meters above the ground. Its elegant design makes the sensor fit perfectly into almost any interior. Moreover, the device is equipped

with a lithium battery, which provides the sensor with up to a year of operation!

Increased sense of security

Are your children afraid of the dark? Now you can make the light automatically turn on as soon as they get out of bed. The sensor can also effectively scare off a potential burglar and generate a loud alarm when it detects unwanted movement. Let all household members feel safe with Imou!

Kit contents

1x Motion sensor

1x 3M sticker

1x Quick start guide

□Manufacturer

□IMOU

□Model

□ZP1

□Wireless protocol

□Zigbee

□Transmission frequency

□2.4GHz

□Operating voltage

□DC 3V

□Installation method

□Wall mounting

□Low voltage alarm

□2,7V

□Standby current

□≤15uA

□Transmission power

□≤15dBm

□Operating current

□≤25mA

□Operating temperature

□ -25°C - 55°C

□Size

□Φ48.4 x 53.4 mm

□Communication distance

□200m (open space)

□Reception sensitivity

□-96dBm

□Detection range

□8m

□Detection angle

□90°

□Installation height

□2,2m

□Battery model

□CR123V

□Battery life

☐ >1 year(20 times/day)

Preço:

€ 25.50
