

Vacuum Cleaner Deerma TJ200

Vacuum Cleaner Deerma TJ200

Ref: 6955578033827

Deerma TJ200 - Your ally in the fight for a clean house

Deerma's multifunctional vacuum cleaner will effectively keep your home clean - sucking in both dry waste and spilled liquids. It is equipped with a powerful 33,000 rpm motor, a footswitch for increased comfort and a 4-stage filtration system to effectively get rid of dirt and allergens. A set of replaceable brushes allows for thorough cleaning of the entire apartment.

It will vacuum up everything you want

The vacuum cleaner can handle both dry and damp waste perfectly. Dust, crumbs, spilled flour, food leftovers, ketchup stains or spilled milk - these and many other types of dirt are effectively cleaned up with just one device! TJ200 is ideal for everyday use. It will also meet bigger challenges - for example, it will help you to clean your apartment after renovation.

Win the war against dirt

The device is equipped with a 800W motor. It allows to obtain suction power up to 18 000Pa. This allows you to clean up all kinds of dirt - dust, crumbs, hair and even spilled beverage - without the slightest problem. Nothing can resist the extraordinary power of a Deerma vacuum cleaner - soon your home will shine with cleanliness.

Brushes for every occasion

In the set you will find several replaceable brushes, which will make cleaning even easier and more pleasant: Flat, absorbent brush - it fits perfectly to the floor and effectively removes dirt such as spilled soup or stains from sauce. It is transparent, so you can see exactly whether you are removing the dirt effectively. Standard brush - handles dust and debris on a smooth surface, as well as hair or crumbs entangled in the carpet. It cleans both dry and wet floors. It sucks in even the hair in a puddle of water without any problem. Multifunctional brush - ideal for cleaning hard to reach places and uneven surfaces. With its help you can vacuum cavities in sofas and armchairs, the keyboard or narrow corners. Corner brush - perfectly collects dust and waste from materials or monitors.

Practical dryer

Use the practical blow-off mode to make your life even easier. Quickly and comfortably dry the wet floor to allow everyone to move around freely. You don't have to worry anymore that someone will leave unsightly marks on the freshly cleaned surface. You can also use this mode to turn your vacuum cleaner into a functional pet dryer!

Enjoy the benefits of a capacious tank

The dust cup has a capacity of up to 6 l. You can easily disconnect it from the main module and then empty and wash it. This is a real time and energy saver, as well as a way to keep the unit clean and reduce contact with dirt. When the space in the container starts to run out or the cup needs to be cleaned, a special indicator will inform you about it.

Clean the whole house comfortably

The aluminium pipe of the vacuum cleaner is extremely light and corrosion resistant, and its length can be adjusted between 54 and 82cm. The length of the TJ200 cable is as much as 5m, and the hose is 1.5m. In addition, 4 durable casters make the equipment even more mobile and comfortable to use. All this translates into easy and comfortable control of the vacuum cleaner - so you can effortlessly clean the whole house.

Take care of cleanliness and health

The 4-stage filtration system makes sure that with a Deerma vacuum cleaner you not only keep your apartment clean but also take care of your health. Quickly and conveniently create a dust-free and allergen-free environment - a large 150mm HEPA filter, among other things, makes it possible.

Designed for your convenience

The device is made of durable yet lightweight ABS plastic. This makes it different from other heavy, bulky equipment and is extremely comfortable to use. A practical foot switch allows you to conveniently switch the vacuum cleaner on and off - thus avoiding annoying bending over and back pain. Replacement brushes can be attached to the TJ200 casing - this way you will always have them close at hand, but at the same time you will not be disturbed and will keep them in order. Deerma effectively combines functionality with comfort of use.
