Diffuser photo softbox Puluz PU5125 95cm

An essential accessory for every photographer! The diffuser is characterized by its octagonal shape, which ensures perfect light distribution on the photographed subject and reduction of shadows, guaranteeing amazing photo effects. Equipped with eight poles, it provides stability and durability. The product is great for portrait photography, product photography, fashion photography and more. Use it and shoot like a pro!

Solid construction

The diffuser frame is made of metal, so you don't have to worry about the diffuser being unstable. In addition, the Bowens mount will allow you to attach your flash easily and securely.

Practical and compact

The Puluz diffuser can be easily folded up, so it doesn't cause any problems when traveling. Its unfolding is child's play, so you'll be ready to create fantastic quality photos in no time.
