Ref: 5905316146662

PULUZ 30 cm LED 24-26lm shadowless tent (PU5032B)

Puluz PU5032B shadowless tent is an ideal tool for photographers, craftsmen or salesmen. Equipped with LED lighting - it will allow you to take professional photos of small objects. The product is easy to assemble, and after folding it is handy and compact. Its portability is facilitated by special handles. The high CRI Ra97 will make the photographed objects look beautiful and natural, so you can successfully auction them, brag about them on social media or sell them in your online store.

Ideal background for small objects

The dimensions of the tent are 30x30x30 cm, which means it's perfect for taking photos of small objects. Do you create handmade jewelry? Or do you sell toys, gadgets or accessories? You can successfully photograph these and many other things using the Puluz shadowless tent. In the set you will find interchangeable backgrounds in as many as 6 colors - white, black, green, red, blue and orange. So you can easily choose one that will best emphasize the character of the subjects you are photographing.

LED lighting

The product is equipped with an LED lamp consisting of 112 light beads. It will provide optimal illumination of the photographed objects. It is characterized by a high color rendering index. Thanks to this, the things viewed in the light it generates look almost the same as in the sunlight, which ensures their natural appearance in photos.

Perfectly thought-out design

The tent is very easy to unfold and fold. Powered by a 2-meter USB cable, it gives you the freedom of your dreams - you can connect it to a charger, powerbank or even a laptop. The clever design of the product allows you to take photos from different perspectives - including from above, through a special opening. The interior of the tent is made of a special material that allows LED light to be evenly distributed, providing optimal illumination for the subjects you are photographing.
