Gaming headphones EKSA E900

Ref: 6974072490554

Gaming headphones EKSA E900

Enjoy stereo sound while playing games. EKSA E900 gaming headphones are equipped with 50 mm drivers, which translates into high-quality sound. In turn, the noise-canceling microphone allows you to talk freely. What's more, the headphones are comfortable and connect to your device via a 3.5 mm audio cable. In addition, they stand out for their wide compatibility, so you can connect them, for example, to a console, smartphone or iPad.

Stereo sound

Immerse yourself in the world of gaming with EKSA E900. The gaming headphones use 50-millimeter neodymium drivers, which translates into 3D sound. Enjoy deep bass and even more immersion. Now you can easily hear the footsteps of approaching enemies and oncoming vehicles.

Detachable microphone

Plan strategies with other players with the EKSA E900. The headphones provide a microphone that accurately records your voice. In addition, the noise cancellation function eliminates ambient noise. So you can comfortably communicate with others and be sure that your interlocutor can hear you. In addition, you can adjust the position of the microphone to suit your needs or detach it if you are not using it at the moment. In turn, the switch integrated into the cable allows you to mute the microphone and adjust the volume.

Wide compatibility

EKSA E900s provide freedom of use thanks to their wide compatibility. You don't have to worry that they won't work with your equipment. You can successfully connect the headphones via the 3.5 mm audio port to your computer, laptop, smartphone, iPad, Nintendo Switch, Xbox and PlayStation. Note, for older versions of Xbox needs an additional adapter (not included). Play your favorite titles as you are comfortable.

Comfort for a long time

Don't be afraid of feeling tired and uncomfortable while using EKSA E900. The headphones offer soft ear cups with a memory function that do not cause uncomfortable pressure. As a result, you can enjoy long-lasting comfort. In addition, the metal headband is adjustable, so everyone can adjust its length to suit their needs.
