PGYTECH CreateMate High-speed Card Reader Case

The PGYTECH CreateMate memory card reader is a great tool for photographers, filmmakers and more. It allows instant file transfer at speeds of up to 312 MB/s, and thanks to its Plug & Play system, its operation is very convenient. The device also allows you to store up to 8 memory cards (4 SD cards and 4 TF cards) and 2 Nano SIM cards. It also stands out for its wide compatibility and rugged design. A silicone case and card removal key are also included.

Fast file transfer

Now you can quickly and conveniently transfer the files of your choice to your phone or laptop. The reader is equipped with 2 slots - for SD and TF memory cards. It is also compatible with the SD4.0 USH-II standard, so it can transfer data at speeds of up to 312 GB/s. This means that it only takes about 10 minutes to transfer 128 GB of files!

Hassle-free card storage

Are you facing an outdoor work day? Take all the memory cards you need with you! The PGYTECH reader offers several small compartments - 4 for SD cards, 4 for TF cards and 2 for SIM cards. So you can always have them at hand - no more worrying about losing them somewhere! You will also find a special key included, which will allow you to conveniently replace the cards without the risk of damaging them.

Convenient operation

Finished taking photos or recording videos? Now you can easily copy your content to a USB-C equipped device of your choice! With the Plug & Play system, all you need to do is connect the reader to your smartphone - no need to waste time on additional setup. This is ideal for those who often organize outdoor sessions and record with sports cameras, drones or phones!

Thoughtful design

The PGYTECH reader was created from high-quality aluminum alloy, making it very durable and not prone to wear and tear. It also features IP54 water resistance - it is not intimidated by rain or accidental splashing. What's more, a silicone case protects it from damage, for example, from shocks or falls. You can also use a special carabiner to attach the reader to your bag or backpack.

Wide compatibility

PGYTECH CreateMate is a great solution for photography lovers and video makers. It is compatible with most popular models of cameras, smartphones, sports cameras and drones. It also supports various memory card standards without any problems. It also works perfectly with Windows, Mac OS, iPad OS, Linux and Android operating systems - so you can copy your files without any problems.
