Soundpeats Wings2 headphones (black)

Looking for the perfect headphones for any physical activity? The Soundpeats Wings2 headphones will be an excellent choice! They feature powerful bass, 13mm driver and low latency. These features guarantee an unforgettable sound experience, whether you're listening to your favorite music, playing games or watching movies. What's more, the wireless connection via Bluetooth 5.3 will be fast, stable and reliable. In addition, this gadget can work for up to 30 hours, so you can take it with you on any trip.

Excellent sound quality

The Soundpeats Wings2 headphones are equipped with a 13mm dynamic driver, which ensures that your music sounds fuller and more immersive. What's more, it also guarantees powerful and deep bass. With Soundpeats, you'll experience your beloved songs in a whole new way!

Ergonomic design

The Wings2 are specially designed to provide total comfort. Equipped with ergonomic ear hooks, they fit perfectly on the ears and stay in place even during multiple exercises. What's more, they show sweat resistance, so you don't have to take them off even during a very intense workout.

Ideal for game fans

Do you like to play games? Wings2 headphones are also for you! With a low latency of 70 ms, they provide perfect synchronization of sound and video. From today no opponent will surprise you anymore!

Wireless connection

Soundpeats headphones use Bluetooth 5.3 technology. This makes them guarantee a stronger signal and a more stable and faster transmission. You no longer have to worry about interference or song breaks! With Wings2 you will completely lose yourself in the music!

Long runtime

Wings2 headphones will give you an uninterrupted audio experience. On a single charge, the headphones can run for as long as 8 hours! You can easily extend this time to 30 hours with the help of the charging case included in the set. Don't worry, however, if its energy runs out, as you can easily recharge them with a USB-C cable.

Comfort of use

Soundpeats are not only a very practical device, they are also very comfortable to use. They stand out for their quick and easy pairing. Forget about the long and unpleasant installation! What's more, you can customize their operation to your preferences from the dedicated app.
