

Portable stand for laptop Nillkin Bolster Plus (black)

Ref: 6902048234901

Portable stand for laptop Nillkin Bolster Plus (black)

Portable stand / laptop feet Nillkin Bolster Plus (black)

Make using your laptop easier. The Nillkin feet allow you to adjust its angle, so you can position your screen at eye level. Bolster Plus will also help you avoid discomfort and fatigue caused by improper posture. What's more, it protects your device from overheating and provides stability.

Adjustable function

Adjust the position of your laptop to suit your needs. The legs offer 3 degrees of adjustment: 3° / 11° / 16°, so you can work comfortably in front of your computer. Thus, the product is suitable for people of different heights and allows you to position the screen at eye level. As a result, you will take care of proper posture and avoid back pain.

Thoughtful design

The legs are finished in aluminum, which translates into stability and prevents the laptop from moving while typing. What's more, you can fold the legs at any time for convenient transportation of the device. You also don't have to worry about your equipment overheating - the legs allow good heat dissipation. The product is also distinguished by a load capacity of up to 10 kg and wide compatibility.
