Electric Multitool Gemini 13-in-1 NEXTOOL NE20213

Ref: 6973907631193

Gemini 13-in-1 electric multitool by NEXTOOL NE20213

Be prepared for any circumstance and carry the Gemini by Nextool. This electric multitool is a reliable tool with which you will solve many problems. With 13 functions, high-quality materials, a minimalist design and a magnetic motor with a speed of 170 rpm, the Gemini is perfect for more than one situation, guaranteeing the efficient performance you need!

The power of the magnetic motor

With Gemini, screwing and unscrewing becomes easier than ever before. The multitool's magnetic motor will allow you to efficiently handle even the tiniest screws, providing an electric torque of 0.2 N.m and a mechanical torque of 3.0 N.m.

Interchangeable bits - 5 tools

In the set you will find 10 interchangeable bits of different sizes and applications - at your disposal are Torx-type bits - T5, T6, T8, specialized bit P0.8, flat bit SL 2.0, cross bits PH000, PH00, PH1 and hexagonal bits H1.5, H2.0. All of them are made of high grade S2 steel alloy, so they will serve you for a long time. Assembling furniture, or perhaps repairing eyeglasses or small electronics? With Gemini it's a piece of cake!

Reliable pliers

Gemini offers full-size pliers to help you with plumbing, electrical, or construction work. Sturdy and strong, they will easily grip small parts and make it easy to manipulate them, as well as help cut wires and other materials.

Other features

This one tool hides more than just a screwdriver or pliers. There is also a knife, an opener, a Phillips and flathead screwdriver, a jack and scissors at your disposal. All the functions will allow you to survive on any camping or hiking trip. Gemini is an essential tool for any circumstance!
