Kamera zewnętrzna IP Arenti O2 WiFi 3MP

Ref: 6972055687717

Kamera zewnętrzna IP Arenti O2 WiFi 3MP

Arenti O2 WiFi 3MP outdoor IP camera.

Now you can rest easy knowing your home is under constant protection. The Arenti O2 outdoor IP camera records in high 2K / 3MP resolution, regardless of the time of day or night. It has a built-in smart motion sensor and also supports two-way audio. With an IP65 rating, you don't have to worry about damaging it, and a dedicated app and voice assistants make it easy to use. It supports microSD cards up to a maximum of 128 GB and allows you to store content in the cloud.

Great quality at any time

The Arenti camera impresses with fantastic recording quality. With Ultra HD 2K/3MP quality, your videos will be extremely clear and clean, allowing you to quickly identify people, vehicles or animals approaching your property. With a wide 145° viewing angle, nothing will escape your attention! The O2 model also captures video after dark - built-in IR LEDs allow you to record at night up to 10m away, giving you a sense of security around the clock.

Intelligent motion and sound detection

Keep your home safe from danger. The O2 camera has a built-in intelligent motion and sound sensor that will make you feel even safer in your home. When the camera detects sound or motion in its field of view, you will receive an instant notification on your phone, so you can stay up to date with what's happening around your home.

Two-way audio

The camera is equipped with a high-quality microphone and speaker, and supports 2-way audio, so you can talk directly to people within range of the camera. Whether you want to give instructions to a courier, talk to guests at the door or warn an intruder - now you can freely talk to them in real time, even if you're not at home!

Additional facilities

Want to gain more capabilities? Download the dedicated Arenti app! You can find it in both the Google Play store and the App Store. It will give you access to live video preview. The app allows you to take photos, record 60-second videos, make two-way calls or change settings. It is also possible to share the camera with other users, such as family members or friends. The camera also supports Google Assistant and Amazon Alexa, so you can control it with your voice.

Resistant to extreme conditions

Worried about damaging your camera during a snowstorm or heavy rainfall? Don't be! The robust design of the camera guarantees reliability in any situation. Thanks to the IP65 degree of protection, the device is resistant to a variety of weather conditions. It is not intimidated by hot summer days or cold winter mornings - it can work in temperatures from -20°C to 50°C. Moreover, its installation will not be a problem for you.

A variety of material storage options

The Arenti camera gives you full flexibility in storing recorded materials. The device supports microSD memory cards of up to 128 GB (not included). Worried about losing important recordings? Take advantage of the cloud to securely store your recordings and access them at any time. The camera is also compatible with NVR (Network Video Recorder).
