Laxihub M3-TY WiFi 1080p Tuya IP Camera

Ref: 6972055680220

Laxihub M3-TY WiFi 1080p Tuya IP Camera

Take care of the security of your property and install the M3-TY camera at home. The device offers high-resolution full HD video and features clear night vision of up to 10 meters. Equipped with smart sensors, it reacts to human movement and sounds, triggering a minute recording mode under their influence. It offers a practical two-way audio function. You can operate the camera by voice - it works with Amazon Alexa and Google voice assistants. Laxihub is a winner of the Red Dot Award - a prestigious design award, so you can be sure that the M3-TY will not disappoint you!

Full HD image

Monitor your home with high-end image technology! The camera provides sharp, bright images with an effective pixel count of 1920(H)*1080(V). It is perfect for home monitoring, providing high image resolution and pristine details. It allows precise tracking of fast movements, even in low-light conditions. The advantage of the M3-TY is its 3.6mm@F2.0 focal length lens, offering a wide 100° viewing angle, which allows monitoring a large space. With Laxihub, you won't miss any important event in your home!

Clear images after dark

Night visibility of 10 meters makes the camera invaluable for unexpected events after dusk. Together with the automatic day/night mode switching function, it allows you to constantly monitor your home, providing images in excellent quality regardless of the time of day and

lighting. Now you can easily identify every detail!

Support for two-way audio

The M3-TY camera is equipped with a speaker and microphone, allowing two-way communication. You can not only observe what is happening within the camera's range, but also respond to it from where you are. Dangerous situation in your child's room? Admonish your kid through the camera! This useful feature will also work in case of emergency situations, where you can scare away a possible intruder with the speaker. Your safety comes first!

A new dimension of security

Intelligent sensors in the M3-TY camera are a guarantee that no disturbing activity will escape your attention. When the sensor detects motion or sound, it automatically activates the recording function, documenting any suspicious event. The recordings are stored in the cloud, which means you can access them from anywhere, anytime. This allows you to instantly check what's happening at home. This is perfect for people who travel frequently or spend a lot of time away from home.

Privacy guarantee

The M3-TY camera is a smart solution for users who value not only security, but also privacy. It works with iOS and Android operating systems, allowing you to control it directly from your smartphone. Thanks to AES-128 encryption, you can be sure that only authorized people have access to the camera's video.

Award-worthy design

Safety and style go hand in hand when it comes to the M3-TY Laxihub. The camera has won acclaim in the design world, becoming a winner of the prestigious Red Dot Award, testifying to the device's solid, thoughtful design. The M3-TY is designed to operate in extreme conditions (-20°C - 50°C), making it perfect not only indoors, but also in garages, porches, etc. Recordings are saved to the cloud or SD card, so you gain easy access to the video, regardless of the option you choose. This model features a sleek, minimalist design, so it's sure to fit in with your home's decor.

Dedicated app

Using the Smart Life app opens up new possibilities for you. With it, you can manage and monitor your safety and that of your household members. The application is easy to use and allows you to stay up to date with what is happening in your home at the moment. What's more, you will be informed about any incident within the range of the camera, which ensures a constant flow of information, as well as the ability to react instantly if necessary. Now you can feel safe!
