Monitor Koorui 27N1 27" 1920x1080px 75Hz Monitor Koorui 27N1 27" 1920x1080px 75Hz

Monitor Koorui 27N1 27" 1920x1080px 75Hz

The Koorui 27N1 monitor is a combination of elegance, functionality and technology that work together to provide the user not only with a high-quality image, but also with a sense of comfort during prolonged work or entertainment. Wide viewing angles, FHD 1920x1080px resolution, rich colors and softness to the eyes - all this is what Koorui 27N1 offers!

Perfection in every detail

The use of IPS panel technology ensures vivid colors and deep contrast. As a result, every image on your screen will be clear, full of detail and sharp, regardless of the angle from which you look at it - all thanks to the wide (178°) viewing angle.

Smoothness and clarity of the image

A 75 Hz refresh rate ensures that every movement on the screen is smooth and seamless, whether you're browsing the web or watching a movie. Forget about stuttering scenes and get caught up in the flow of events during movie screenings.

Stunning color palette

With 99% SRGB color gamut coverage, the Koorui 27N1 presents images in the full color spectrum. With 16.7 million colors, every shade is faithfully rendered. If you value high image quality, you will appreciate how vivid the colors look on this screen.

Aesthetics meets functionality

Great image quality isn't everything - comfort matters too! Tilt adjustment and VESA support make it possible for you to adjust the monitor to your needs, which guarantees freedom and comfort while working or entertaining.

Taking care of your eyes

The Koorui 27N1 is equipped with a practical Eye Care function that takes care of your eyes' comfort during prolonged computer use. This technology reduces the impact of blue light, preventing eye fatigue and irritation.
