Joyroom JR-TL1 Pro Wireless Headphones (black)

Joyroom wireless headphones are a convenient solution for anyone who appreciates complete freedom when listening to music. They offer fantastic, richly detailed sound and a reliable Bluetooth connection with stable transmission without interference. The headphones have an operating time of up to 28 hours, and it won't take you more than 1.5 hours to replenish their power. What's more, the headphones feature an ergonomic shape and convenient, touch-sensitive operation, as well as IPX7 water resistance. Listen to music wherever you are and whatever you are doing!

Sound rich in detail

Enjoy rich sonic details under any circumstances! The headphones are equipped with 6-millimeter drivers that are responsible for deep sound. The full frequency response and professional tuning will allow you to enjoy powerful bass and clear mids and highs. The JR-TL1 Pro will surround you with HD quality sound, making you feel like you're at a concert!

Reliable wireless connection

The headphones connect to the device of your choice via Bluetooth version 5.1. This means you can enjoy a stable transmission without any interference. When paired for the first time, the headphones automatically connect to your device as soon as you open the case. This practical solution makes them ready to use whenever you feel like it! The JR-TL1 Pro is distinguished by its low latency, so you can freely

watch movies or play games while enjoying perfect audio/video synchronization.

Long runtime

With the JR-TL1 Pro headphones, you'll make any trip more pleasant. The powerful battery allows up to 8 hours of continuous listening or 6 hours of phone calls. You can gain an additional 20 hours - the charging case will replenish the energy of the headphones 2.5 times, so you can listen to an entire audiobook or an album by your favorite artist without interruption. Charging time for the headphones and case is only 1.5 hours.

Free phone calls

The JR-TL1 Pro are equipped with sensitive microphones so you can make calls without interference. Your caller will hear exactly everything you have to say to them. You don't have to take out your phone when someone calls you - the headphones have a convenient touch panel that allows you to quickly operate the call and music player.

Wide compatibility

The Joyroom wireless headphones feature an impedance of 32Ω, which means they are ideal for use with mobile devices such as phones, or music players and consoles. Simply connect them via Bluetooth, play, watch movies and listen to music while enjoying excellent sound quality!

Thoughtful design

Joyroom has taken care of everything, so the JR-TL1 Pro is not only high quality sound, but also exceptional comfort. The ergonomic shape of the headphones perfectly adapts to the shape of your ear, so you can listen to music for hours without discomfort. You'll store the headphones in a lightweight, portable case, so transporting them is no problem, and with IPX7 water resistance, you can listen to energetic music during an intense workout or a walk in the rain.
