Mechanical gaming keyboard Motospeed SK84 RGB

Ref: 6953460502031

Motospeed SK84 RGB Mechanical Keyboard

The Motospeed SK84 keyboard will meet the expectations of even the most demanding users. It features 84 keys with red switches, which are distinguished by long life. You can connect it to the device of your choice in 3 ways - wired or wireless. Ergonomic design combined with RGB backlighting will delight any gaming enthusiast.

Red switches

The keyboard is equipped with 84 keys with red switches, which provide extremely smooth and quiet operation. They respond to a pressure of 45 g, and their activation travel is 2 mm. They are great for both playing games and typing. In addition, their lifespan reaches up to 50 million clicks, so you can be sure that the keyboard will serve you for a long time.

Various ways to connect

Enjoy even more freedom of use. You can connect the Motospeed keyboard both wired and wirelessly. Using a USB receiver, you will connect the keyboard to your computer in the 2.4G band. You can also use Bluetooth 5.0, which offers stable and fast signal transmission. Do you prefer traditional solutions? Take advantage of the USB cable! The product works great with Windows, Android and Mac.

Colorful RGB backlighting

The SK84 features colorful RGB backlighting, which gives the keyboard a unique gaming feel. This will make the Motospeed keyboard the perfect addition to your gaming zone! What's more, there are up to 20 modes at your disposal, which you can freely customize to your preferences - just choose the right key combination!

Additional capabilities

Operating the keyboard is extremely easy. It is equipped with 12 function keys that will make it easier for you to operate your computer. Using them, you can, among other things, adjust the volume, manage the music player, adjust the screen brightness or change songs. See for yourself how convenient it is!

With comfort in mind

Ensure the maximum level of comfort during hours of gaming! The Motospeed SK84 keyboard will delight you with its ergonomic design - you will no longer have to worry about sore wrists or feeling tired, even during prolonged use. You will also find a special tool that will make it easier for you to remove the keys from the keyboard - you can also change their position according to your needs.
