Soundpeats Opera05 headphones (black)

Lose yourself in the world of music with the Soundpeats Opera05. The headphones let you hear previously elusive details of songs and enjoy high quality sound. They use 12-millimeter dynamic drivers and dual armature drivers, providing Hi-Res level audio. Dual ENC noise-canceling microphones allow you to talk freely on the phone, while Bluetooth 5.3 guarantees a stable connection and affects lower power consumption. What's more, the touch panels make it easy to use, and a light indicator will let you know the case's battery level. In addition, they catch the eye with their elegant black and gold design.

Stereo sound

The headphones provide high quality stereo sound, which is confirmed by Hi-Res certification. They are equipped with 12 mm dynamic drivers and a dual armature driver and offer a frequency range of 20 Hz - 40 kHz. The LDAC audio codec, in turn, guarantees audio frequencies of up to 24 bit/96 kHz. In addition, the carefully considered design helps reduce electromagnetic fields and improve sound quality.

Talk freely on the phone

Train station, crowded bus? Soundpeats Opera05 will work perfectly. The headphones use a dual microphone with ENC noise cancellation to eliminate annoying background noise. No longer do you have to worry that your caller can't hear you, with Opera05 you can freely talk

on the phone without interference.

Reliable

Forget about interference! The headphones support Bluetooth version 5.3, which translates into a fast and stable connection. What's more, it provides lower power consumption, so you don't have to worry about the headphones suddenly going flat! On a single charge they work for about 9 h, and with the charging case up to 33 h. Included in the package you will find a USB-A to USB-C cable to renew the energy of the headphones.
