Earphones Soundpeats Air 4 (black)

High-quality sound, noise-free calls, reliable connectivity - these are the main advantages of the Soundpeats Air 4. The headphones use Snapdragon Qualcomm aptX technology, which guarantees lossless signal transmission for even better sound. Built-in microphones and hybrid noise cancellation allow you to talk on the phone without interference, and Bluetooth 5.3 ensures a fast connection. You can also pair the headphones with 2 devices and switch between them conveniently. The rechargeable battery, on the other hand, provides up to 26 hours of use (including the charging case), and the included cable (USB-A to USB-C) allows you to renew the power of the headphones.

Delightful sound without distortion

Listen to songs in even better quality. Soundpeats Air 4 are equipped with 13mm dynamic drivers that deliver bass-rich sound. What's more, Qualcomm aptX Snapdragon technology offers lossless signal transmission and high sound quality, almost the same as from a CD. So you can enjoy your favorite tunes without interference.

6 microphones and noise reduction

Conveniently make phone calls without worrying about background noise The headphones use hybrid noise cancellation technology that eliminates sounds up to 45 dB, so you can talk freely in the center of the urban jungle. What's more, the 6 built-in microphones

effectively eliminate outside noise and ensure high-quality conversations - you don't have to worry about your interlocutor not hearing you.

Fast connection

Say goodbye to connection problems! The headphones support Bluetooth 5.3, which translates into an instant connection without interference. In addition, you can pair the headphones with 2 devices at the same time and switch between them conveniently. Are you watching a movie on your laptop and someone is just calling you? No problem! Answer the call, and when the call is over, continue the screening.

Up to 26 h of work

Play games, watch movies and listen to music for up to 26 h - that's how long the headphones work with the charging case. On a single charge, on the other hand, in Normal mode their operating time reaches 6.5 h. A color light indicator will let you know the battery level, so you can renew the case's energy in time. The kit also includes a USB-A to USB-C cable to help you charge your Air 4.
