Mechanical gaming keypad WASD Motospeed K27 RGB

### Motospeed K27 keypad for gamers

The Motospeed K27 is a modern keypad with the most important keys for FPS game lovers. It can be easily and comfortably operated with one hand. Its clever design with dedicated wrist rest reduces the feeling of fatigue and increases the comfort of use. The Motospeed K27 gives you a whole new level of gaming experience. The Motospeed K27 gaming keypad is equipped with 27 mechanical keys that allow you to achieve great results during gameplay and break new records. The special design of the device provides unmatched comfort of use.

### Gaming backlighting

Each keyboard key has RGB LED backlighting, so the K27 will look great on any gaming desk. What's more, you can choose from up to 5 lighting modes. So you can freely adjust the look of the device to your preference. Millions of colors and surprising light effects give the keyboard a unique character.

### Durability and performance

The life of the keys is about 50 million clicks, which means they are extremely durable. On the other hand, an advanced flash chip is responsible for the enhanced performance of the device. All this means that the keyboard will serve you well for many years.
