Ref: 3760301555100

Pour-over coffee maker Techwood TCA-696 (black)

Techwood pour-over coffee maker TCA-696 (black)

Start your morning with the aromatic scent of freshly brewed coffee. The Techwood TCA-696 drip coffee maker is the perfect combination of modern technology and ease of use. Now you can enjoy the exceptional taste of your favorite beverage whenever you want! The device offers an advanced anti-drip system and automatic shut-off, and with a capacity of 750 ml, it can prepare up to 6-8 cups of coffee.

Practical Solutions

Forget about dripping coffee and stains on your kitchen counter - the coffee maker features an advanced anti-drip system. The device also has a practical filter handle and protection against overheating. You can check the current water level at any time to ensure it is sufficient. Furthermore, the coffee maker shuts off automatically - no need to worry about forgetting it.

High Performance

With a power of 550-650 W, the coffee maker operates efficiently, ensuring fast coffee brewing. Moreover, the 750 ml capacity allows you to prepare 6 to 8 cups of the beverage, so you can share your favorite flavor with family and friends. It's the perfect solution for breakfasts with loved ones or gatherings with friends!
