Techwood TBQ-816 table top electric grill.

Discover a new dimension of taste and a revolutionary solution for lovers of healthy cooking with the TBQ-816 grill. Its large grilling surface allows you to prepare delicious dishes for the whole family. The adjustable grid gives you full control over the grilling process. The smart design with removable heating element and fat recovery container make grilling convenient, healthier and more hygienic. The 2000W power ensures fast and even cooking, and the taste and aroma of the food will delight any palate. Techwood TBQ-816 is a must-have in the kitchen, guaranteeing great moments with loved ones and taking care of your health. Try it out today and discover new possibilities of culinary experiences!

Exceptionally large grilling surface

Techwood TBQ-816 is designed for maximum efficiency. It has a large griddle on which you can easily prepare meals for family and friends. With the ability to set it directly on the table, you can enjoy grilling together without waiting too long for your portion, while avoiding the hassle of eating already cooled dishes. Thanks to the ability to adjust the grid at two different heights, you have full control over the grilling process. Whether you're preparing a juicy steak or tender vegetables, adjust the grilled settings to suit your taste preferences.

Adjustable grid at 2 heights

Our grill is designed with your convenience in mind. It features a convenient on/off switch with a power regulator and LED indicator to let you know when the unit is running. In addition, the grill has a removable heating element, as well as a dishwasher-safe tray and grate, making it much easier to clean. Taking care of our customers' health is a priority for us. That's why our Techwood TBQ-816 grill has a special container that collects excess fat during grilling. This smart system not only improves the taste of food, but also makes cooking safer and more hygienic.

Convenient and smart design

The Techwood TBQ-816 is not only convenient and functional, but also extremely efficient. Powered by 2000W and supplied with a 230V~ 50Hz power cord, the grill quickly reaches the right temperature for fast and even cooking. The Techwood TBQ-816 Electric Grill is an essential tool for lovers of healthy cooking and great taste. Try it out today and experience great moments with your loved ones, enjoying your favorite dishes without worrying about smoke or excess fat. Techwood TBQ-816 - cooking that brings joy and care to your health.
