

## Wireless headphones TWS ONIKUMA T306 Black

Wireless headphones TWS ONIKUMA T306 Black

Ref: 6972470562828

### TWS ONIKUMA T306 Headphones Black

The TWS ONIKUMA T306 headphones are a great choice for people who play sports or are tired of headphones constantly falling out of their ears. The design of the T306 resembles a clip, which you put on your ear, but do not insert directly into it. The headphones feature directional sound transmission, which enters the ear without spreading in other directions.

### Stable connection

Equipped with Bluetooth 5.3, the T306 headphones provide a stable connection within a range of up to 10 meters from the paired device. So you can put your phone on a stable surface and exercise by yourself without worrying about it slipping and falling. You can also move between rooms while listening to music or connect to devices in other rooms.

### Run time

The ONIKUMA T306 headphones are ideal for long-term listening, as the battery allows for 8 hours of use during which you can watch several movies or a dozen videos. Encased in an ergonomic form factor, this battery requires only 1.5 hours of charging to keep you entertained for a long time.

### Interesting design

The T306 headphones are designed in a sporty style resembling a clip in form. The larger, cylindrical part of the earphone is worn behind the ear, while the smaller round part is worn in front. This design benefits the health of the hearing aid and is comfortable.

#### Touch control

You can control the headphones using the touch points on the back side of the headphones. With them you can pair, turn the headphones on and off, play and stop playback, skip between songs, adjust the volume and more!

#### Directional Sound

Direct Tone directional sound is one of the features of the T306 headphones - the sound from the headphones spreads in a certain range of directions, falling perfectly into your ear and without trailing off in other directions. What's more, the T306 feature a three-band balanced HIFI sound effect and soft mids and rich lows.
