Smart Multi-functional Control Panel T6E panel S

Avatto T6E intelligent control panel S
Want to control your home conveniently? The smart control panel from Avatto will be an excellent choice! It allows you to manage all smart devices, and what's more, thanks to its well-thought-out design, it will be convenient to use. Every member of the family will be able to use it freely. See for yourself what Avatto can offer you!

Convenient management of home appliances
Avatto smart control panel is a central unit for managing all smart home devices. With its help you will be able to control smart switches, outlets, sensors or lighting. What's more, with a touch, you can create and run smart scenes that will adjust lights, air conditioning and many other settings according to your mood. Manage your home easily and conveniently with the Avatto smart panel.

Convenient operation
The Avatto device provides incredibly convenient operation, tailored to your needs. With Zignee support and Bluetooth Mesh technology, it is able to create an integrated environment for more than 100 devices, making the management of home devices simple and efficient. In addition, with built-in Alexa, the panel allows intuitive voice control of devices, triggering scenes, setting alarm clocks and providing up-to-date weather forecasts. This is true convenience and comprehensive control of your smart home, available in one modern panel.

Touch screen
The control panel is equipped with a 4-inch HD LCD screen that provides exceptional image quality and intuitive operation. It makes using the panel not only easy, but also convenient and smooth for all family members. Regardless of age or experience, everyone will be able to efficiently manage devices at home.

Light and distance detection sensor
The Avatto device is equipped with an advanced light and distance detection sensor. Thanks to it, the brightness of the screen is adjusted automatically, adapting to the intensity of the ambient light for optimal visual comfort. In addition, the panel automatically wakes up when it detects the presence of people just 20 cm in front of the panel. Not only will you find information such as time, date and temperature on the panel's screen, but you can also customize its appearance by choosing from available themes to individualize the panel according to your preferences.

More possibilities with the app
The Avatta smart control panel is compatible with apps such as Tuya and Smart Life. This allows you to control devices anywhere and anytime using your phone. In addition, the app allows you to easily share control of your smart home with other family members, providing shared access to all functions and settings.
