TESSAN Power strip TS-301

Ref: 6975799311900

TESSAN Power strip TS-301

Conveniently power your essential devices and make it easy to keep your desk organized. The TESSAN TS-301 power strip is equipped with 3 AC outlets and 3 USB-A ports, so you can connect up to 6 devices to it simultaneously. It is also distinguished by its compact design - it won't take up too much space on your desk, and its eventual transportation won't be a problem. You also have the option to stick it to the surface of your choice with 3M tape.

Connect up to 6 devices simultaneously

Want to charge or power several devices at the same time? You no longer need to use more outlets or chargers - you only need one power strip! The TS-301 offers as many as 3 AC outlets and 3 USB-A ports, which enable fast charging and automatically adjust the current parameters to the requirements of the connected devices. So you can plug in as many as 6 devices at the same time - for example, 2 smartphones, a laptop, a lamp, a tablet, a desk fan and headphones.

Convenient operation

The TS-301 is equipped with a convenient ON/OFF button, with which you can turn the power on or off at any time. This will ensure that the device will operate only when you actually need it, and you will save electricity! Information about the status of the strip will provide you with a built-in light indicator. When you turn on the power, it will glow gently - just take a look!

Thoughtful design

Forget about large, impractical strips - the TS-301 model is designed to take up as little space as possible. Its dimensions are only about 7.6 x 7.6 x 7.6 cm. You can also stick it to the wall or under the desk top with 3M tape - this way you will save even more space and make it easier to stay organized. The device also ensures safety of use - it is made of durable, flame-retardant plastic.

Will prove itself when traveling

Are you going on vacation? Or maybe you need to go on a business trip? Take the power strip with you and enjoy convenient access to electricity wherever you are! The device is not only compact, but also lightweight - it weighs only about 350 g. You can easily fit it in your suitcase or backpack! What's more, the TS-301 is compatible with 220-250 V, so you can easily use it in many countries around the world.
