TESSAN Power strip TS-302

Ref: 6975799312013

TESSAN Power strip TS-302

The TESSAN TS-302 power strip is perfect for both home and office use. It is equipped with 4 AC outlets and 3 USB-A ports, allowing you to connect up to 4 devices simultaneously. The non-slip pads on the bottom give it unparalleled stability, and you can also attach it to the wall to save space on your desk.

Connect up to 7 devices at the same time

This practical power strip will allow you to power or charge up to 7 devices at the same time - you can connect your laptops, smartphones, speakers or desk fan to it without any problems. It offers as many as 4 AC outlets with a maximum total power of 2,500 W and 3 USB-A ports, which enable fast charging and intelligently adjust the current parameters to the needs of the plugged-in equipment. So your tablet, digital camera or wireless headphones can be up and running in no time!

Save energy

The built-in ON/OFF switch will allow you to turn the power on or off at any time. This allows the strip to work only when it is actually needed - as a result, you will save electricity! Information about the status of the device will provide you with a special light indicator. When the power is turned on, it will glow gently - just take a glance to see if everything is working as it should.

Refined in every detail

Stock up on a small strip, which will save space and make it easier to keep things in order. The unit measures only about 11.1 x 11.1 x 4 cm, and the non-slip pads on its underside prevent it from sliding around on the countertop. If you want, you can also attach it to the wall so that it doesn't take up any space on your desk at all. The product is also distinguished by its durability and resistance to damage - durable, flame-retardant plastic was used to make it.
