Smartwatch Mibro Watch A2 (Greece)

Ref: 6971619678758

Product can only be activated in Greece. (Product can only be activated in Greece)

### Smartwatch Mibro Watch A2

Stock up on a versatile smartwatch that's great for everyday use. The Mibro Watch A2 will notify you of incoming messages, and will also allow you to make phone calls conveniently. It is equipped with a 1.39-inch HD display and offers plenty of watch faces to choose from. It also monitors your heart rate, blood oxygen saturation and sleep. There are also up to 70 sports modes to choose from. The smartwatch provides a battery life of up to 10 days and boasts impressive performance. Note: the product can only be activated in Greece.

### 1.39-inch HD display

Comfortable operation of the smartwatch is enabled by a round 1.39-inch HD display with a pixel density of 391 PPI. This allows you to enjoy clear images and vivid colors in almost any conditions! The Mibro Watch A2 also lets you choose from a variety of original watch faces - just use the Mibro Fit app. Among other things, dynamic dials are available - check which one you like best!

### Excellent performance

Among other things, the all-new Bluetooth 2-in-1 chip, which allows faster, more stable connection, is responsible for the smartwatch's reliable performance. In addition, lower power consumption and dual-core architecture boost processor performance by up to 80%, while

the 2.5D GPU enables the watch's dynamic dials to run smoothly. Forget about lags and annoying stuttering!

#### Rugged, stylish and waterproof

The Mibro Watch A2 smartwatch can make a fantastic addition to any style. It presents itself extremely elegant and is very durable - don't be afraid of damaging it quickly. It also comes with two types of straps - silicone and woven. So you can customize the watch even better! The device is also distinguished by its 2ATM water resistance - you don't have to take it off your wrist when you wash dishes or it rains. It is not intimidated by accidental splashes!

#### Stay connected

With Mibro Watch A2, you don't have to worry about missing something important. The smartwatch will immediately notify you of incoming messages. It also allows you to make phone calls conveniently. You can also reject an incoming call or send a text message to the person calling you at any time with a single click. Now everything you need is at your fingertips!

#### Will help you take care of your health

Keep your hand on the pulse and gain the ability to react quickly to alarming symptoms. The smartwatch is equipped with a new 4PD sensor that can monitor your heart rate for up to 24 hours a day and provide more accurate measurements. The device can also monitor blood oxygen saturation and sleep. This will let you know immediately about any abnormalities, take better care of your health and improve the quality of your rest!

#### Something special for athletes

Do you lead an active lifestyle? Or are you just starting your adventure with sports? Mibro Watch A2 is for you! The watch offers as many as 70 sports modes to choose from - you are sure to find something for you. But that's not the end of the possibilities - if you use modes such as cycling, running outdoors, walking, mountain climbing or rollerblading, a dedicated app will use your phone's built-in GPS to record your covered routes and workout data, which you can also share with your friends!

#### Even more features

The Mibro Watch A2 offers plenty of additional features that will come in handy on a daily basis. With the watch, for example, you can check the weather and set an alarm clock. A calculator, timer, stopwatch and calendar are also available. The device will also remind you to move when you sit in one place for too long. The smartwatch also monitors stress and suggests relaxing breathing exercises. It also allows you to remotely control your smartphone's camera and music player.

#### Up to 10 days of working time

Forget about having to charge your smartwatch frequently. The Mibro Watch A2 stands out for its low power consumption, so it can serve you for up to 10 days with normal daily use. In basic mode (when it's on but not connected to the app and not worn) it lasts up to 50 days. During music playback, the watch will last for about 5.5 hours, and during Bluetooth calls for about 5 hours.
