

Tripod Mount Puluz with 26cm RGBW LED Ring Vlogging PKT3082B

Ref: 5907489605250

Tripod Mount Puluz with 26cm RGBW LED Ring Vlogging PKT3082B

LED Ring Light with Phone Holder

Thanks to the RGB light with adjustable brightness, you can quickly and easily adjust the effect of your photos according to your own preferences, without using additional color filters. With the remote control you can change the modes of the lamp, controlling the brightness and color of the light. The remote control has a very strong signal, so you can easily control the lamp from the room next door. In addition, RGB lighting can flash different colors or shine constantly on one selected color.

Wide application

The tripod from Puluz will find its application in many fields. You can take it to outdoor photo shoots, and the lamp will also light up the room when recording live videos, at home or during concerts. The tripod will also be perfect for recording vlogs, taking photos for commercials or portraits. The light will also be a unique addition on your bedside table.

Take it with you everywhere

The tripod is compact in size and weighs very little. Plus, you can fold it up so you can easily put it in your purse and take it with you on outdoor photo shoots. Thanks to its long-lasting battery, you don't have to worry about the battery running out while you're recording live. The PKT3082B can be charged using a USB cable.

Functional tripod

The tripod mount is made entirely of plastic, and the soft rubber feet will not slip on smooth surfaces. A standard ¼-inch thread allows you to attach the mount to your camera, gimbal or monopod. The tripod head swivels 360° so you can set the most favorable angle for you. The phone clamp is compatible with smartphones from 6-8.5 cm wide.

In the box

Ring LED light x1

Tripod holder x1

Tripod ball head x1

USB cable x1

Remote control x1

Phone clamp x1

Brand

Puluz

Model

PKT3082B

Input voltage

DC 5V +/-0.2V (recommended current 3A)

LED beads

48 pieces SMD 5050 RGB + 2 x 60 pieces SMD 2835

Luminous flux

24-26 lm

Interface

USB

Working current

Mixed color light: 5 V 2 A;RGBW: 5 V 1,3 A;Blue/red/green light: 5V 0.7A each;Warm monochromatic light: 5V 1.6A;White light: 5V 1.8A

Remote control distance

Up to 12m

White light color temperature

6500K

Warm white light color temperature

3200K

Light color

Red: wavelength 620-625nm, luminous flux 600 mcd/lm;Green: wavelength 520-525nm, luminous flux 1000 mcd/lm;Blue: wavelength 460-465nm, luminous flux 400 mcd/lm
