The Tribit QuitePlus 71 Wireless Headphones (black)

Want to listen to your favorite music no matter where you are? Tribit headphones will be perfect for you! They stand out for their wireless connectivity, as they use Bluetooth 5.0 technology - so you can enjoy a perfect and uninterrupted connection! What's more, they are equipped with ANC active noise cancellation, which means they guarantee clearer and more realistic sound effects. They are also ergonomic and very lightweight. With Tribit, your beloved music will always be with you!

Wireless pleasure

Want to free yourself from tangled cables? With Tribit it will be possible! They use Bluetooth 5.0 connection, so they provide a stable, secure and fast connection. However, if you prefer traditional solutions, you have the option to connect them with a cable with a 3.5 mm jack plug. What's more, when you want to change settings, you no longer need to reach for your phone every time! All the necessary buttons are located on the handset - you can, for example, stop/restart playback, raise or lower the volume, turn on ANC mode or see the charge level.

ANC technology

Tribit headphones are designed for users who want to completely lose themselves in the music, so they are equipped with ANC technology. Thanks to it, unnecessary noises are reduced, so the device provides clearer and more realistic sound effects. What's more,

at your disposal is the ability to manually select the noise cancellation mode depending on your listening preferences and surroundings. With Tribit you will completely lose yourself in your beloved songs!

Long playback time

What sets Tribit headphones apart is their long playback time. Equipped with a lithium-polymer battery, they provide up to 30 hours of playback time! Don't worry, however, when their energy runs out, as you'll renew it in just 2.6 hours with the included cable! Enjoy your favorite sound wherever you are!

Comfort of use

Tribit is not only a functional headphone, it is also a comfort of use. You don't have to worry about uncomfortable pain while wearing them, as they are equipped with soft, shape-memorizing ear cups that have the ability to rotate 90°. What's more, they also have an adjustable headband, and their weight reaches only about 213 g, so they won't be an extra weight. Want to pack them in your suitcase? No problem! Thanks to their foldable design, they will be perfect for any trip!
