Wireless TWS Earphones Havit TW925 (White)

Immerse yourself in high-quality stereo sound. The wireless Havit TW925 earphones provide crystal-clear audio and built-in microphones for convenient phone conversations. With a battery life of up to 3.5 hours on a single charge and Bluetooth 5.0 connectivity, you'll experience fast and stable transmission. Built-in touch panels make these earphones easy to use, and they also support voice control.

Reliable Connection

Connection issues are a thing of the past. Bluetooth 5.0 ensures fast, stable, and reliable wireless connections. The earphones automatically pair with each other and the previously paired device, making their use incredibly straightforward. What's more, each earphone can connect independently to your smartphone, allowing you to use both simultaneously or just one.

Perfect Sound

Delight in high-quality HD stereo sound. The TW925 earphones offer unparalleled detail, crystal-clear audio, and perfect harmony. Now you can rediscover the beauty of your favorite songs!

Long Battery Life

Listen to music for as long as you want without unwanted interruptions. Fully charged earphones can play music for up to 3.5 hours on a single charge, and the included charging case extends this time to around 17 hours. The case is lightweight, portable, and equipped with a USB-C port.

Built-in Touch Panels

No need to reach for your smartphone every time you want to use basic functions of the earphones. You won't be bothered by protruding buttons either. The TW925 earphones feature built-in touch panels that allow you to conveniently control playback and phone calls.

Phone Conversations

Free your hands and comfortably talk on the phone while cooking, cleaning, or enjoying your favorite hobby. The TW925 earphones have high-quality built-in microphones that capture your voice perfectly. You can be sure your callers will hear you without any issues!
