Cable USB-C to USB-C Mcdodo CA-3452 100W 90 Degree 1.2m (blue)

Now you can charge your smartphone or laptop in no time, while conveniently using your devices while charging. The Mcdodo Firefox cable features a 90° curved connector and is very durable - it will serve you well for a long time. It also provides up to 65 W of power, making it perfect for a variety of devices - even laptops.

Something for gamers and more

If you often use your smartphone while charging, the Firefox cable will be an excellent choice. Its thin, only 5-millimeter connector curved at a 90° angle does not protrude and does not interfere with comfortable use of the device - so you can comfortably play mobile games or watch TV series. The product is also distinguished by a modern, stylish design - transparent elements and soft backlighting give it a remarkable character.

Fast charging

Forget about the long wait until your device is ready to use. The Firefox cable supports PD 65W fast charging (in combination with the right charger), so it can charge your smartphone, tablet, Nintendo Switch console or even laptop in no time.

Rugged construction

Mcdodo Firefox is a durable flat cable that stands out for its impressive resistance to bending, tearing and other types of damage. High-quality PVC plastic was used for its construction, which ensures its durability and prevents it from tangling. In addition, copper wires guarantee more stable performance, greater resistance to interference and faster charging.

Transfer files in no time

Do you often transfer photos or videos between devices? The Firefox cable will come in handy for that too! It can provide transmission speeds of up to 480 Mbps, so you can copy all the necessary files very quickly. You don't have to waste time on prolonged waiting anymore!
