

## Wireless Charger Mcdodo CH-7063 3 in 1 15W (mobile/TWS/Apple

Ref: 6921002670630

Wireless Charger Mcdodo CH-7063 3 in 1 15W (mobile/TWS/Apple

Wireless Charger Mcdodo CH-7063 3 in 1 15W (mobile/TWS/Apple watch) Black.

Now you only need one charger to charge all your devices! The Mcdodo 3-in-1 wireless charger supports fast charging with up to 15 watts of maximum power and supports MagSafe. It allows inductive charging of three devices at the same time, and thanks to its wide compatibility, you can use it with equipment from many popular brands. Multi-level protection ensures reliable safety of use.

### Charge even faster

Experience how fast you can charge your smartphone! The charger supports fast charging of devices with up to 15 watts of power. It is also backward compatible with 10W/7.5W/5W. As a result, charging will only take a few moments! In addition, you will be informed about the charger's operating status by the built-in light indicator.

### Up to 3 devices at the same time

Don't waste time waiting for one device to be charged to plug in another! The Mcdodo charger allows you to wirelessly charge your smartphone, smartwatch and TWS headphones at the same time. A special stand will allow you to charge your Apple watch in a horizontal position, and support for MagSafe makes the charging process for iPhones more efficient.

### For the sake of safety

You no longer have to worry about the safety of your equipment while charging! Equipped with 6-level protection, the charger provides effective protection against damage. The connected device is protected against overcurrent, overvoltage, overheating or magnetic interference, among other things. What's more, when the charge level reaches a certain level, the charger will slow down charging to avoid overheating or damaging the battery.
