BOBOVR A2 Air VR Headphones for Oculus Quest 2

Ref: 6937267000334

The BOBOVR A2 Air VR Strap-on Headphones

Enhance your VR experience with the BoboVR A2 Air! These headphones are not only comfortable to use and easy to install, but will also provide excellent sound quality. What's more, with several modes, you'll be able to customize their performance to suit your needs. Take your VR experience to the next level!

Excellent quality

Do you want to completely lose yourself in the games you are playing? With BoboVR it will be possible! Featuring a dual titanium composite TPU film with a high-power $32\Omega/30mW \times 2PCS$ and an NdFeB magnetic speaker that provides a frequency range of 20-20000 Hz, these headphones allow you to have an unforgettable sound experience. Lose yourself in your favorite games and experience a new dimension of enjoyment!

Great compatibility

What sets the BoboVR headphones apart is their wide compatibility. To mount them on a VR strap, you just need to move them with a flick of the wrist, so they will fit most models. They are suitable for Quest2 (including on BOBOVR and popular third-party straps). With BoboVR, you can greatly improve the sound quality and make your VR experience even better!

User comfort

BoboVR is not only a functional headset that will improve your VR experience - it's also incredibly comfortable. In the set you will find two pairs of earcups, which you will replace easily, as they are equipped with practical magnets. The smaller (sports) ones are perfect for dynamic gaming, while the larger ones will be perfect for everyday use. They have been made of high-quality materials, making them very soft, breathable and well-fitting to the shape of the ear. Improve the quality of your VR experience with BoboVR!

Thoughtful design

Someone calling you during gameplay? You don't have to take off all your VR gear! You can place the BoboVR headphones comfortably over your ear, so you can mute the sound and carry on a conversation freely. What's more, you can adjust the headphones up and down 2 cm and you can tilt them 15°. This makes wearing them even more comfortable! Also, don't worry about mounting them on your VR headband - you'll mount them easily in just a few moments!
