

## Smart LED bulb Sonoff B02-F-ST64 White

Smart LED bulb Sonoff B02-F-ST64 White

Ref: 6920075776164

### Vintage atmosphere

The bulb from Sonoff will give your room a vintage style and illuminate it with warm light. Thanks to the eWeLink app, you can adjust the brightness and color from 1800 K to 5000 K. Everything to make you feel comfortable in your home.

### Environmental friendly

The power of the Sonoff bulb is 7W, while a standard incandescent bulb consumes 60W of electricity. Sonoff has created a bulb that saves up to 90% on your electricity bill.

### Voice control

The bulb features voice control and is compatible with Google Assistant and Alexa. From now on, you can turn the light on/off and control its brightness and color with your voice.

### More possibilities

With the eWeLink app, you can set a personalized program where you decide what time the light should turn on/off, for example, the light will turn on at the time you get home from work and turn off 15 minutes after you go to bed. You can also pair the bulb with the Sonoff DW2-Wi-Fi door sensor, and the light will automatically turn on when you open it. Additionally, the bulb is compatible with any

lamp with an E27 thread.

#### Group control

With the eWeLink app, you can control one bulb or group them together and control them all at once, even when you're not at home. What's more, from now on, all household members can control the lights in your home.

#### Brand

Sonoff
