Ref: 6956116759445

Cable Pioneer 30W USB C to Lightning SA31-CL3 / 30W/ 1,2m (b

Pioneer 30W USB C to Lightning Joyroom SA31-CL3/ 30W / 1.2m (black) cable

Looking for a durable and reliable cable? Joyroom will be the right one for you! This high-quality cable is designed for efficient charging and data transfer. Thanks to the use of different types of USB to USB-C connector, it is compatible with many devices. It will meet the expectations of even the most demanding!

Excellent Performance

The Joyroom cable allows for fast charging at 30 watts. This means that your equipment will be energized quickly and efficiently - just 30 minutes is enough to charge your phone up to 60%. In addition, the data transfer speed reaches up to 480Mbps, allowing you to transfer files in no time and use applications that require fast data access. What's more, with its USB to Lightning interface, it will fit most modern devices including tablets as well as phones.

Tailored to your Needs

The cable is made of durable material (zinc alloy and braided nylon), which not only protects against damage, but also ensures flexibility and long-lasting use. It will retain its properties for a long time. What's more, its length reaches as much as 1.2 meters, so using it will be very comfortable. Moreover, you can rest assured about your devices, as the cable automatically regulates the voltage, ensuring safe charging.
