

Speakers SVEN PS-380, 40W Waterproof, Bluetooth (black)

Ref: 6438162021290

Speakers SVEN PS-380, 40W Waterproof, Bluetooth (black)

SVEN PS-380 Speakers, 40W Waterproof, Bluetooth (black).

SVEN PS-380 is a speaker with which you will rock any party - fantastic sound quality is one thing, and rich interactive RGB lights are another. Visible during the day, phenomenal at night - the speaker's lights dancing on walls and people's faces! With TWS technology, you can connect two speakers to a single source and have double the music fun. The 40W output power is enough to immerse you in music during evening relaxation and party at a house party. You can play music from the PS-380 via Bluetooth, connect a flash drive, a device with an AUX-terminated cable, or turn on your favorite station!

Fantastic sound

First of all, the sound quality of the SVEN PS-380 speaker is very good. With an output power of 40W (2 x 20W), the sound is strong enough to fill a space and deliver exceptional sound during social gatherings or moments of relaxation. The speaker offers a wide frequency range from 60 to 20,000Hz, allowing you to enjoy both dynamic beats and more subtle sound details.

Light up your interior

The SVEN PS-380 speaker is not only about sound quality, but also a unique visual effect thanks to its interactive RGB lights. These color-rich lights not only create an unforgettable atmosphere during evening gatherings, but also, when night falls, transform the space into a magical dancing show on the walls and faces of those present. The speaker impresses not only with sound, but also with visual

effects.

Connect two speakers to one source

TWS (True Wireless Stereo) technology is another advantage of this speaker. The ability to connect two PS-380 speakers to a single sound source creates a surround sound effect that conquers the quality of listening and allows you to immerse yourself in the music with even more enjoyment.

Play the way you want

In addition, the speaker comes with a variety of connectivity options, including Bluetooth, a USB-C port, an AUX input and the ability to play music from a flash drive. The battery life is up to 10 hours on a single charge, making it possible to enjoy your favorite tunes for a long time without interruption.

Waterproof

An additional feature that sets the SVEN PS-380 speaker apart is its IPx5 waterproof rating. With the non-ji, you can enjoy your favorite music not only indoors, but also outdoors, without worrying about accidental splashes or rainy surprises. This feature makes the speaker not only versatile, but also resistant to changing weather conditions, which is important, especially during outdoor events or holiday travel. Water resistance adds not only durability, but also confidence that you can enjoy your music without worrying about potential damage.
