

Speakers SVEN PS-415, 12W Waterproof, Bluetooth (black)

Ref: 6438162019631

Speakers SVEN PS-415, 12W Waterproof, Bluetooth (black)

SVEN PS-415 speaker, 12W waterproof, Bluetooth (black)

Host a party anywhere. SVEN PS-415 speaker is equipped with 2 drivers - each with a diameter of 70 mm. Thanks to them it can work in a wide frequency range from 100 to 20,000 Hz. The device is distinguished by its compact size and weighs just over a kilogram. A practical handle makes it easy to carry and transport. The built-in 1,500 mAh battery provides up to 10 hours of operation, and the dynamic backlight with several modes will help create the right mood. The device can work wired or wirelessly thanks to Bluetooth technology. It also supports USB drives and micro SD cards. It is also equipped with a built-in FM radio. Operation is facilitated by an LED display. In addition, by connecting the microphone to the dedicated input, you can enjoy home karaoke!

An essential for parties

With the SVEN speaker, you'll ensure your guests have a great time at any party! The PS-415 offers an interactive light show that will capture everyone's attention. The multi-color backlighting works in several modes to create an unforgettable atmosphere. You can customize the effects to your favorite songs, making the music a truly visual experience. The backlighting is visible even during the day, and looks truly stunning after dark!

An evening of karaoke? Why not!

Connect the microphone to the speaker and awaken the passionate musical performer in you. Use the control panel to adjust the ideal

volume level of your voice. Spoil your loved ones with a lively performance of your favorite songs! This is your opportunity to shine as a real karaoke star in your home.

Connect it the way you want

Thanks to the fact that the SVEN speaker supports Bluetooth technology, you can enjoy a stable connection at a distance of up to 10 meters. If you prefer a more traditional solution, connect it to a compatible device using the included cable. The PS-415 also supports USB drive and microSD memory cards, so you can create your own playlist and enjoy its sound in top quality. What if you don't have your collection of favorite songs on hand? No worries! The built-in FM radio, allowing you to select the frequency on the LED display, offers a wide selection of songs 24/7.

Control panel and LED display

The easy-to-read LED display provides information on radio station frequency, volume level, as well as song length (when you play music using a USB drive or microSD card). The display is integrated into the control panel and allows you to quickly find a song by number, select a radio station, choose an audio source, configure the backlight mode and more.
