SVEN PS-440 Speaker, 20W Bluetooth (black)

SVEN PS-440 was created with the most demanding music lovers in mind. With a 20W amplifier and 95mm drivers, it guarantees not only crystal clear sound, but also a dynamic sound that will fill any room. You can also connect 2 speakers of the same model to a single sound source using Bluetooth technology and enjoy even more powerful surround sound. The RGB backlighting will create an amazing atmosphere, and the LED display will make it easy to operate. The operating time of the device reaches up to 10 hours on a single charge. In addition, thanks to the built-in FM radio, you can explore new songs every day. You can also play music from a USB drive or microSD card. Moreover, by connecting a microphone to the speaker, you will create a home karaoke. You will find a remote control included.

Stunning sound quality

Discover sound quality that delights. Equipped with a 20-watt amplifier and 95mm drivers, the SVEN speaker delivers impressive volume levels and deep, crystal clear sound. With a frequency response ranging from 100 Hz to 20,000 Hz, you can enjoy a wide spectrum of sounds - from deep bass to subtle treble. As a result, the device brings out the best in every song. Plus, you can adjust the Equalizer settings to enjoy an even more personalized music experience.

Interactive light show

Take your party to a new level with mesmerizing and multi-color RGB backlighting. The SVEN speaker offers multiple modes for you to create your own original light show. Now you can synchronize the light to the rhythm of your favorite songs. The backlighting is visible not only in the dark, but also during the day, making it the perfect choice for any occasion.

Party with karaoke? Why not!

Plug the microphone into the speaker to discover your hidden vocal talent. Using the control panel, you can conveniently adjust the volume of your voice to impress others with your performance of your favorite songs! With the SVEN speaker, creating an atmosphere of true karaoke in the comfort of your own home becomes extremely easy. Ready to become the star of the evening?

Reliable Bluetooth connection

Enjoy stable transmission over a distance of up to 10 meters thanks to Bluetooth technology. Now you can turn on your favorite background music, listen to a podcast or an audiobook in no time - just pair your smartphone with the acoustic system. If you prefer a more traditional solution or the speaker is close to running out of power, you can also enjoy its wired operation with the included cable.

Play music the way you like it

Whether you're just listening to your favorite songs or looking for new sounds, the SVEN speaker offers a variety of ways to play music. Have you saved the songs of your beloved artists on a USB drive or microSD card? You can conveniently play the audio files of your choice without connecting additional devices. Want to immerse yourself in new sounds? The built-in FM receiver will let you do just that!

User-friendly

Operating the SVEN speaker is intuitive and hassle-free. Thanks to the easy-to-read LED display, you can easily read information about the radio station, sound level and song duration. The control panel, on the other hand, allows you to, among other things, quickly find a specific song, tune in a radio station or select an audio source. You can also adjust the backlighting mode to create the right mood. In addition, the included remote control puts all functions at your fingertips - no need to get up from your comfortable chair anymore! In the package you will also find batteries with which to power it.

Refined design and long operating time

SVEN PS-440 speaker combines refined design and reliable performance. Thanks to its practical handle, you can carry it easily. Its weight does not exceed 2.25 kg - so it can be an indispensable companion on any trip. In addition, it allows you to enjoy music without limits. One charge is enough to listen to music for up to 10 hours. Enjoy the sound of your favorite songs without interruption!
