Speakers SVEN PS-720, 80W Bluetooth (black)

Ref: 6438162019600

SVEN PS-720 Speaker, 80W Bluetooth (black)

Get even more enjoyment out of your music. The SVEN PS-720 speaker stands out with up to 80 watts of power and is equipped with 2 32mm tweeters and midrange and woofer drivers - 145mm each. This allows you to enjoy deep bass and a new appreciation of vocals and musical instruments. It is possible to adjust the Equalizer settings, and dynamic backlighting allows you to maintain the good mood. All the necessary information about the speaker's operation is displayed on the LED screen, and its functions can be managed with the remote control. You can also connect 2 speakers of the same model. You can play music from a USB drive, microSD card, as well as use Bluetooth technology or connect the speaker to a compatible device via a cable. A built-in radio will also be at your disposal. The PS-720's operating time reaches 10 hours.

### High-end sound

With a huge output power of 80 watts (2 x 40 watts) and a dynamic frequency range of 45 to 22,000 Hz, the SVEN speaker brings every note to life, creating an experience that will delight your senses. The sound is shaped by two 32mm tweeters and midrange and woofer drivers of 145mm each. Regardless of the musical genre, the device delivers full harmony of sound, satisfying even the most demanding music lovers. You can adjust the sound according to your preferences by changing the Equalizer settings.

### Colorful backlighting

The multi-color backlighting will sustain an enthusiastic atmosphere, enriching the dance floor. Several modes of operation will be at your disposal. Bring your party to life by configuring the lighting to match the music! The backlighting is visible even during the day, so it will be perfect for any situation.

#### A variety of connection options

The SVEN PS-720 speaker offers a variety of connection options so you can enjoy your music exactly the way you like it. Bluetooth wireless audio transfer allows you to connect to your device stably up to 10 meters away. If you prefer to access your own song collection, the option to play your favorite tracks from a USB drive or microSD memory card is a great choice for you. In addition, the built-in FM receiver opens up a world of endless music for you. By selecting a frequency on the LED display, you gain access to a variety of 24/7 songs to help create the perfect atmosphere. However, if you prefer traditional connections, use the included cable to connect the speaker to the sound source of your choice.

#### Interesting possibilities

The speaker offers capabilities that will help you have even more fun. Thanks to TWS technology, you can connect 2 speakers of the same model and enjoy surround sound that will make your party legendary! And if you dream of karaoke in the comfort of your home, the PS-720 model will meet your expectations. Connect the microphones to the speaker to discover your vocal talents or perform a duet. Configure the desired sound level of your voice on the control panel and enjoy performing your favorite songs live - and with an echo effect! Your loved ones will be delighted with this unique form of entertainment provided by the SVEN device.

#### Thoughtful design

The LED display provides essential information such as radio station frequency, volume level and song duration when playing from a USB drive/ microSD card. The control panel allows you to easily find a song by its number, enter the frequency of a radio station, select an audio source, configure the backlight mode and manage many other functions. All this translates into convenient operation. An added bonus is the practical microphone holders, located on the back of the speaker. Place them in the right place, and you'll be free to move the device anywhere and continue the fun wherever you want.

#### Up to 10 hours of operation

The speaker's powerful battery provides up to 10 hours of uninterrupted musical fun. What if the party goes on longer than planned? No problem! You can place a powerbank in a special niche on the case to quickly charge the device and keep the fun going at full speed. Sing and dance with your friends everywhere - no interruptions or limitations! What's more, you don't have to move away from the group and manually adjust the settings to control the device's operation - just use the included remote control!
